A. HARSH,

WHOLESALE DEALER IN

Notions and Fancy Goods,

AND MANUFACTURER OF

Umbrellas and Parasols,

Corner Main and Factory sts, Massillon, O

Repairing promptly done.

E. D. DOISEE,

COAL DEALER.

Office West Side Canal Near Gas Works.

Thankful for former liberal patronage would respectfully solicit a continuance of the same. Confident that he can give satisfaction as he delivers none but

CLEAN COAL

from the best mines, at greatly reduced rates.

TERMS:—POSITIVELY CASH.

INDEPENDENT.

The quantity of carbonic acid gas, a portion of the air when in undue quantity is deleterious to health, contained in the atmosphere of a school room where children are in considerable numbers during six or eight hours of the day, has been the subject of investigation by one competent to make a scientific report. If this gas were red and thus should become visible, what a bloody aspect many of our crowded and ill ventilated rooms would present! But it is no less fatal because we cannot see it; nor need we go off to Germany to witness its ravages. The necessity of fresh air and healthful ventilation are too often overlooked and hence the health of school children suffers severely—headaches, sickness, pains, and even death are frequent attendants on such lack of foresight. The following statistics give with almost mathematical accuracy the quantity of this gas at different hours of the day:

Time.	Quantity of carbonic acid gas.
7-45 a m, before opening school	8 31 parts per 1000
8-00 am, end of first recitation	4 30
9-00 a m, after the recess	4 07
10 00 a m, before a brief recess	6 37
10 16 a m, after the recess	6 93
11-00 a m, end of the recitation hour	4 11
11-10 a m, the room being empty	7.30
1-45 p m, before school commenced	5.03
3-00 p m, beginning of recess	7.06
3-00 p m, after the recess	6.46
4-00 p m, end of singing lesson	9 36
4 10 p m, the room being empty	5 72

From the Amerikanische Schulzeitung we learn that Doctor Breiting of Basle, Switzerland, has examined the school rooms of that city. As one of the results of his examination we give the analysis below of air taken in a room measuring 261.61 cubic meters, having 10 54 square meters of windows and doors, and containing on the day of examination fifty-four children;

The following article taken from the New York *Tribune*, presents the question of so changing our national constitution as to recognize God and the Christian religion, as the petitioners claim should be done, in a strong light; and to us the assumptions are not violent but the natural and logical sequences of the proposition. Should such an alteration ever become engrafted in the fundamental law of the land, it will be a sad day for our country. As another has well said we believe that God can just as well take care of himself without having his name paraded in the constitution.

RECOGNIZING GOD.

The people of the United States came to their political majority resting—or rather, staggering—under the heavy burden of Human Slavery. For eight years thereafter, they remained under the unjust imputation of cherishing and sustaining that anomaly when in fact they had not the right nor the power to abolish it. State Sovereignty shielded this, as it has shielded so many crying abuses; and only the madness of the slaveholding caste ultimately gave the Nation the power and the opportunity to establish its political fabric on the solid foundation of Impartial Liberty. At length we trust evermore, the political rights of every American citizen are exactly to those of every other, and are thus guaranteed and shielded by our Federal Constitution.

Eternal vigilance is the price of Liberty. We have no sooner routed the enemy who defiantly advanced from one direction than we are called to meet an other who more meekly and sinuously approaches from another. The foe who desecrated and chattelized man is succeeded by one who is speciously intent on recognizing and honoring God.

We cheerfully admit that the authors and backers of the new crusade are worthy men and good citizens. We admit that what they propose seems to them not only right but eminently proper and urgently necessary. It is not a novelty that men should have an earnest "zeal for God" which is not according to knowledge. "Yet know not what spirit ye are of," was an admonition addressed to the immediate followers of the Savior; what marvel that some followers of those followers should be tempted to serve a similar rebuke? Persecution and every form of intolerance and bigotry have been the work of men who meant thereby to honor God and bless mankind. In resisting an erroneous and perilous movement, we no-wise impugn the motives nor assail the characters of its champions.

The convention held this week in Philadelphia to promote an amendment of the Federal Constitution whereby God shall be formally recognized and Christianity declared the true basis of all human government deliberately

Resolved, That, in view of controlling power of the Constitution in shaping State as well as National policy, it is of immediate importance to public morals and to social order to secure such an amendment as will indicate that this is a Christian nation, and place Christian laws, institutions, and usages, in our Government on an undeniable legal basis in the fundamental laws of our nation—specially those which secure a proper oath, and which protect society from blasphemy, Sabbath-breaking; and polygamy.

"A proper oath"—that is, an oath proper to be taken by Christians as these men understand Christianity. Can a Hebrew take this oath? or a Deist? or an Atheist? or a "heathen Chinee?" or even a rationalizing Unitarian? Manifestly not. The very object of imposing such an oath would be defeated if he could. This "prope. oath" is intended and will be shaped to exclude not only from office but from voting, if challenged, from the jury box, and from the witness stand, every one who is not regarded by its framers as a Christian. Who does not see that this is Church and State in a far more intolerant union than any European monarchy now endures.

But "blasphemy" is one of the offences against which the new Amendment is to "protect society." Of course, blasphemy must be defined before it can be punished. Our prosecutors and judges must determine that an averment is blasphemous, just as John Calvin and Company did when they condemned, sentenced, and burned to death, Michael Servetus, a scholar and theologian of blameless life and unquestioned honesty, for his stout resistance to the Trinitarian dogmas. If it be indeed the duty of Government to "protect society" against "blasphemy" then the roasting of Servetus, as of tens of thousands like him, was eminently proper and salutary. The Spanish Inquisition with its racks, thumb screws, infinite unbearable tortures, and burnings at the stake, was a logic and inevitable deduction from the premise that it is the duty of Government to "protect society" against "blasphemy."

"Sabbath breaking," too, is among the crimes against which it is proposed to "protect society" by Federal power. *Whose* Sabbath is to be thus hallowed and hedged about by Federal punishment? Unquestionably that of the promoters of the Amendment, not the Jews, Seventh day Baptists, &c. That God has set apart and sanctioned the first day of the week for a Sabbath, is not at this hour the conviction of a majority of the American people; and of course any experiment which would satisfy the promoters of the proposed Amendment would be violated each week by at least five million persons. How shall our already overburdened Courts find time to try the culprits? where shall we find prison-cells in which to immure them.

But we forbear. The proposed recognition of God involves a more fundamental and sweeping change than was effected by our fathers' separation from Great Britain. It would give us a government not unlike that from which Rome has been emancipated. We entreat thoughtful, intelligent citizens to refrain from giving the project a countenance which cannot fail to be productive of grave mischief.

ACTION OF THE COLORED MEN.

At the Colored Men's Convention held at Columbus, on Wednesday, there was great interest and considerable ability manifested. Matters strictly pertaining to their own social and political interests were considered and their deliberations were both dignified, earnest and enthusiastic. The business committee presented the following points which were unanimously adopted as the sense of the Convention: 1st We ask that the Congress shall repeal all laws making distinction on account of color. 2d. We ask for such modification of the school laws as will give the colored children equal educational rights in all particulars. 3d. We urge the propriety of calling a national convention. 4th. We urge upon our people the propriety of entering upon all branches of industry. In addition to the above the following preamble and resolutions were also unanimously adopted:

Whereas We, the colored people of Ohio have by our votes in part allied ourselves with the Republican party: and

Whereas, They, as a party, have acknowledged us as an element of the same; therefore

Resolved, That it is impolitic for us to state our grievances against the party other than in caucus, except in conventions called by the Republican party.

The deliberations of the Convention were concluded by the adoption of a resolution endorsing the Republican party and in favor of supporting Gen. Grant for the Presidency in 1872.—*Beacon.*

Obituary notices are often unconsciously satirical, as in this written of an old citizen of Nashville:—"He was a most exemplary citizen and Christian. He had been four times married, and died in perfect resignation."

BENJAMIN FRANKLIN was more of a philosopher than poet, yet all who are more or less familiar with his writings have not overlooked the fact that he sometimes indulged in rhyme. The following effusion is one of his productions, and in its practical way expresses the sentiments of many a working man and woman. It has often been in the papers, yet is good enough to bear many future repetitions:

MECHANIC'S SONG.

Ye merry Mechanics, come join in my song,
And let the brisk chorus go bounding along.
Though some may be poor, and some rich there may be,
Yet all are contented, and happy and free.

Ye Tailors, of ancient and noble renown,
Who clothe all the people in country and town,
Remember that Adam, your father and head,
The lord of the world, was a tailor by trade.

Ye Masons, who work in stone, mortar and brick;
And lay the foundation deep, solid and thick,
Though hard be your labor, yet lasting your fame,
Both Egypt and China your wonders proclaim.

Ye Smiths, who forje tools for all trades here below,
You have nothing to fear while you smite and you blow,
All things you may conquer, so happy your lot,
If you're careful to strike while your iron is hot.

Ye Shoemakers, noble from ages long past,
Have defended your rights with your ALL to the LAST!
And Cobblers, all merry, not only stop holes
But work night and day for the good of our soles.

Ye Cabinet-Makers, brave workers in wood,
As you work for the ladies your work must be good;
And Joiners and Carpenters, far off and near
Stick close to your trades, and you've nothing to fear.

Ye Hatters, who oft with hands not very fair
Fix hats on a block for a blockhead to wear,
Though charity covers a sin now and then,
You cover the heads and the sins of all men

Ye Coach-Makers must not by tax be controled,
But ship off your coaches and fetch us home gold;
The roll of your coach made Copernicus reel
And fancy the world to turn round like a wheel.

And Carders, and Spinners, and Weavers attend,
And take the advice of Poor Richard, your friend;
Stick close to your looms, your wheels, and your card,
And you never need fear the times being hard.

Ye Printers, who give us our learning and news,
And impartially print for Turks, Christians and Jews,
Let your favorite toasts ever bound in the streets,
The freedom of speech, and a column in sheets!

Ye Coopers, who rattle with driver and adze
A lecture each day upon hoops and on heads,
The famous old ballad of Love in a Tub,
You may sing to the tune of your Rub-a-dub.

Ye Ship Builders, Riggers, and Makers of sails!
Already the new Constitution prevails;
And soon you shall see o'er the proud swelling tide,
The ships of Columbia triumphantly ride.

Each Tradesman turn out with his tools in his hand,
To cherish the arts and keep peace in the land;
Each 'Prentice and Journeyman join in my song,
And let the brisk chorus go bounding along.

THE OLD CONFIDENCE IN SUPERSTITION.

That prosaic and coldly rational temper with which modern men are wont to regard natural phenomena was in early times unknown. We have come to regard all events as taking place regularly, in strict conformity to law; whatever our official theories are, we instinctively take this view of things. But our primitive ancestors knew nothing about the laws of nature, nothing about physical forces, nothing about the relations of cause and effect, nothing about the regularity of things. There was a time in the history of mankind when these things had never been inquired into, when no generalizations about them had been framed, tested or established. there was no conception of an order of nature, and therefore no distinct conception of a supernatural order of things. There was no belief in miracles as infractions of natural laws, but there was a belief in the occurrence of wonderful events too mighty to have been brought about by ordinary means. There was an unlimited capacity for believing and fancying, because fancy and belief had not yet been checked and headed off in various directions by established rules of experience. Physical science is a very late acquisition of the human mind, but we are already imbued with it to be completely disabled from comprehending the thoughts of our ancestors. "How Finn cosmogonists could have believed the earth and heaven to be made out of a severed egg, the upper concave shell representing heaven, the yolk being earth, and the crystal fluid the circumambient ocean, is to us incomprehensible; and yet it remains a fact that they did so regard them.—How the Scandinavians could have supposed the mountains to be the mouldering bones of a mighty Jotun, and the earth to be his festering flesh, we cannot conceive; yet such a theory was solemnly taught and accepted. How the ancient Indians could regard the rain clouds as cows with full udders milked by the winds of heaven is beyond our comprehension, yet their Veda contains indisputable testimony to the fact that they were so regarded." We have only to read Mr. Baring Gould's book of Curious Myths, from which I have just quoted, or to dip in Mr. Thorpe's great treatise on Northern Mythology, to realize how vast is the difference between our stand point and that from which, in the latter middle ages, our immediate fore fathers regarded things. The frightful superstition of werwolves is a good instance. In those days it was firmly believed that men could be, and were transformed into wolves. It was believed that women might bring forth snakes or poodle dogs. It was believed that if a man had his side pierced in battle, you could cure him by nursing the sword which inflicted the wound, As late as 1600 a German writer would illustrate a thunder storm destroying a crop of corn by a picture of a dragon devouring the produce of a field with his flaming tongue and iron teeth.

The only force they knew was the force of which they were directly conscious,—the force of will. Accordingly, they imagined all the outward world to be endowed with volition, and to be directed by it. They personified everything,—sky, clouds, thunder; sun, moon, ocean, earthquake, whirlwind. The comparatively enlightened Athenians of the age of Perikles addressed the sky as a person, and prayed to it to rain upon their gardens. And for calling the moon a mass of dead matter, Anaxagoras came near losing his life. To the ancients the moon was not a lifeless ball of stones and clods; it was the horned huntress, Artemis, coursing through the upper ether, or bathing herself in the clear lake; or it was Aphrodite, the protectress of lovers, born of the sea foam in the east near Cyprus. The clouds were no bodies of vaporized water; they were cows with swelling udders, driven to the milking by Hermes, the summer wind; or great sheep with moist fleeces, slain by the unerring arrows of Bellerophon, the swan or swan maidens flitting across the firmament, Valkyries hovering over the battlefield to receive the souls of falling heroes; or again, they were mighty mountains piled one above another, in whose cavernous recesses the divining wand of the storm god Thor, revealed hidden treasures. The yellow haired sun, Phoibos, drove westerly all day in his flaming chariot; or perhaps, as Melagros, retired for a while in disgust from the sight of men; wedded at eventide the violet light, Oinone Iole; which he had forsaken in the morning; sank, as Herakles, upon a blazing funeral pyre, or like Agamemnon, perished in a blood stained bath; or as the fish god, Dagon, swam nightly through the subterranean waters, to appear eastward again at day break. Sometimes Phaeton, his rash, inexperienced son, would take the reins and drive the solar chariot too near the earth, causing the fruits to perish, and the grass to wither, and the wells to dry up. Sometimes, too, the great all seeing divinity, in his wrath at the impiety of men, would shoot down his scorching arrows, causing pestilence to spread over the land. Still other conceptions clustered around the sun. Now it was a wonderful treasure house, into which no one could look and live; and again it was Ixion himself, bound on the fiery wheel in punishment for violence offered Here, the queen of the blue air.—Atlantic for February.

HOW TO CURE DRUNKENNESS.

It is generally understood that young persons, when first employed as pastry cooks, are permitted to surfeit themselves to their hearts content on pies and sweetmeats; the result being that in a short time they become perfectly callous to the charms of the counter. In the Austrian army a method on a similar principle, is adopted as a remedy for drunkenness; and medical reports state that out of 130 cases, 128 cures of confirmed drunkards have been effected. The plan is as follows:

The soldier taken in a state of intoxication, or purposely inebriated, is confined to his room, where his diet is carefully and amply supplied to him, according to his choice. For drink he is allowed brandy and water, in the proportion of one-third brandy and two thirds water. Coffee with a small quantity of brandy is also allowed him. At first the treatment throws the patient into a constant state of intoxication, and he sleeps much. At the end of three or four days he takes a dislike to his food and drink, and asks for a change, which request, were it acceded to, would entirely prevent the completion of cure.

On the contrary, it must now be persevered in until the patient can no longer swallow food or drink, and even the smell revolts and nauseates the stomach, then the cure must be considered as effected. The shortest time for the continuance of the treatment is seven days; the longest nine. In order to prevent the congestion which might ensue, the patient must be given gentle emetics—that is, one grain of emetic in a bottle of water; a wine-glassful taken every quarter of an hour in the morning fasting. This is followed by forty grains of magnesia, daily; given in broth or gruel; placing the patient at first on a low, light diet, and then gradually increasing to his original rations. If during the first part of the treatment, spitting of blood or convulsions should result, it must not be persevered in; therefore, this mode of remedy cannot, on any pretense whatever be adopted but by medical man.

In Russia drunkenness is also treated as a disease, and certain strong aromatic preparations are used as curative means. As a temporary means to restore the unfortunate victim to the state of sobriety, give him from ten to twelve drops of spirits of ammonia in a wine glass of water. This will be sufficient in a common case, but if the person is positively drunk it may be necessary to give the dose the second time, in which case it will generally act as an emetic, when a short sleep will ensue, and the patient will wake restored.

None but a medical man may venture to apply the ammonia to the nostrils, as not only injurious but fatal effects might ensue.

LATE HOURS.

Henry Ward Beecher recently preached on Late Hours and the unfruitful works of darkness. He said:

"If you want to make the mind of your child clear, give him liberty after dark. You cannot do anything surer to insure his damnation than to let him have liberty to go where he will without restraint. After dark be will be sure to get into communication with people that will undermine all his good qualities. I do not like to speak to parents about their children. Their child will not lie, when his tongue is like a bended bow; he will not drink, when there is not a saloon within a mile of his father's house where he is not as well known as the decanters; he never does iniquitous things when he is rolling in filth. Nineteen out of every twenty allowed perfect freedom at night will be wounded by it. There is nothing more important than for a child to be at home after dark, or, if he is abroad you should be with him. If he is to see any sights or take any pleasure, there is nothing that he may see, that you should not see also. It is not merely that a child should be broken down, but there are thoughts that never ought to find passage in man's brain. As an eel, if he wriggles across your carpet, will leave his slime which no brushing can ever efface, so there are thoughts which can never be got rid of, if one be permitted to enter, and there are individuals going round with obscene books and pictures under the lappels of their coats that will never be effaced. There are men who have heard a salacious song, and they will never forget it. They will regret having heard it to the end of their lives. I do not believe in a child seeing life as it is called, with its damnable lust and wickedness to have all his imagination set on fire with the flames of hell. Nobody goes through this fire but they are burned; and they can't get rid of the scars.

The Louisville *Courier-Journal*, in the following paragraph, makes an open confession of the real difference between the two great political parties of the day. It reminds one of the candor of the late Mike Walsh, who said the grog-shops were the chief nurseries of the Democracy: "The great instrumentality through which Radicalism attains place and power is Mind, with a little assistance from Money; the great instrumentality through which Democracy attains the same ends is Ignorance. Wherever Radicalism prevails there Learning lifts her classic head, and from her ambrosial locks scatters intelligence abroad; wherever Democracy obtains a foothold, there Ignorance erects her shrines and altars before which her blind and ragged votaries prostrate themselves in the dust and sing pæans in her praise. It is not strange, then, that the Democrat who is true to his principles and his party never approaches a school-house without instinctively feeling in his pockets to see if he can find such a thing about him as a box of matches or a can of nitro glycerine. It is to the Democratic party the English poet refers when he tells us that "where ignorance is bliss it is folly to be wise" Which of these pictures is most attractive? Every American citizen can take his choice.

A Boston girl asks the following pertinent questions of other Boston girls: "Could you love a man who wore false hair on his head, when he had enough of his own? Who painted his face and improved his form as you improve (?) yours? Who pinched his feet with small shoes, his hands with small gloves, his waist with corsets; and then, as if he had not already deformed himself enough, tied a huge bustle to his back, and thrust tiny mountains of wire into his bosom?" The Revolution responds to these questions by others, addressed to young men, as follows: "Could you love a girl who defiled her mouth with tobacco and loaded the air with fumes of cigars? Who staggered home several times a week the worse for liquor? Who indulged in fast horses, bet high at races, and swaggered around the streets with questionable characters?" Which picture wears the most alluring colors?

A glass of whisky is manufactured from about seventy grains of corn the value of which is too small to be estimated. A glass of this mixture sells for a dime, and if it is a good brand is considered worth the money. It is drank in a minute or two. It fires the brain, deranges and weakens the physical system. On the same sideboard on which the deleterious beverage is served lies a newspaper. It is covered with half a million types—it brings intelligence from the four quarters of the globe. The newspaper costs less than the glass of grog, but it is not less true that there is a large number of people who think corn juice cheap and newspapers dear.

NEWSPAPERARCHIVE®

The Independent.

Two Dollars a year, in advance.

Massillon, Wednesday, February 1.

G. A. R.—The Ohio department of the Grand Army of the Republic, met at this place on the 25th ult. This occasion brought a considerable number of strangers to town, and no doubt they enjoyed their visit, as the members of Hart Post, of this place did everything they could to render the presence of their guests agreeable. Of course we pretend to relate none of the inside workings of the order, but from what appears to the public there amplei reason to conclude that the object of the gathering here was a succes. On the first day of the convention Gen. Kiefer, the principal officer in the department, delivered an address, wherein he gave the particulars of what had been done and what is contemplated the coming year. The election of officers for the future resulted in the choice of the following named gentlemen: P. C., W. C. Bunts, of Cleveland; S. V. C., J. B. Thomas, Soldiers Home; J. V. C., J. S. Clemmer, Salem; Medical Director, J. M. Boyd, Xenia; Chaplain, W. Ernshaw, Soldiers Home. The next semi annual meeting is to take place at Xenia, commencing July 19th, 1871. The encampment was in session two days. On the evenings of the 25th, 26th, and 27th ult. the Union Spy was presented to large audiences, in the Opera House, by members of Hart Post, assisted by a number of ladies and gentlemen. Often before has our community been favored with the presentation of this admirable allegory, but there is something about it so attractive that there is no fail in having full houses. General satisfaction is expressed by hundreds at the admirable manner in which the company rendered the Spy. All who participated did themselves credit in so well personating the characters they assumed. Theater goers from other cities, who are connoisseurs of histrionic action, claim that this company need not be afraid to present themselves on any stage. These tableaux were the theme of universal admiration. All who saw them unite in saying they never witnessed more beautiful scenes than were there presented. Whoever controled that department cannot be excelled in taste and skill.

Mr. Travelleck, president of the labor union movement in the United States, made a speech of some two hours in length in the Opera House, on Saturday night to a fair sized audience composed of working men, a large portion of whom were miners. General attention was given to his remarks, and the speaker was frequently interrupted with vigorous applause. During the progress of his remarks he said many good things, uttered any number of wholesome truths, but so comprehensive are his aims that the fault of his speech (if fault there was) became apparent when he attempted to discuss too many points. Could he have limited his effort to the discussion of the land reform phase of the movement he would have found ample material to fill up not only two hours, but many more hours, in which to elucidate this single point. It is a measure that the American people must meet—that is, opposition to land monopoly—very soon, or it may be too late to combat the evil in a quiet way—for it is growing at a fearful rate. Another point of great importance, and that is the want of harmony between capital and labor, is a theme of too great magnitude to be disposed of in a few sentences. True, Mr. T. partially discussed both the above points, somewhat, but there were so many other considerations, more or less intimately connected with them, which engrossed part of his time that he could not do full justice to any, by considering each thoroughly. His hits at the delinquency of political parties could not be appreciated by the friends of either, although they may be deserved, at least to some extent. Mr. T. is a pleasant speaker, a fine looking man, and makes a rather favorable impression on his audience. We take it for granted that he is sincere, in earnest, and is doing the best he can to enlighten the people on the questions of reform he has set out to help carry through. In regard to some of his theories, especially concerning finance, his ideas may be crude, undigested, and by many regarded as incorrect; and for this reason would it not be better for him to let such intricate subjects alone? Make the proper status of working men his great theme, and not try to lug in too much, for this spoils the good intended to be accomplished. One thing at a time is a good motto for public speakers, if they would prove successful.

Shawls, shawls, shawls, come and see how cheap we are selling them. Humberger & Son.

THE WAR OVER.—Every friend of humanity will sincerely rejoice that the fearful and desolating war between Prussia and France, has about come to a close. Reports inform us that on Friday Paris surrendered, at last being convinced that it was no use to try to hold out longer. The sufferings of many thousands of the people of both nations must have been intense, for death and desolation have marked this war as being one of the most terrible and destructive of modern times. Paris was imprisoned for something like 137 days. Some two millions of people were within its borders, and it could not be otherwise than that a vast amount of suffering was their lot. Nor were the beseigers exempt from the dread penalties of war. During this six months war hundreds of thousands of lives have been sacrificed, and multiplied millions of property destroyed. The *Tribune* says it will take two hundred years to place France where it was, in the way of material wealth, before the war. The mad ambition, not only of Napoleon, but of his friends, and a large part of the French people, precipitated this war, and terrible have been the reverses which the nation has undergone. Starting out with a view of enlarging the borders of the empire at the expense of their German neighbors, by an easy conquest, the nation is now surprised to find itself humbled at the feet of its opponents; and instead of widening its own borders France has lost much of the territory of which the elder Napoleon robbed the Germans more than half a century ago. In place of being among the first forces of the world France is now reduced to the third or fourth rate class, and in a condition such as this generation nor their predecessors have for a century probably experienced. An unprovoked war with famine in its train has led to these consequences. France now loses Alsace and Lorraine territory, a large number of ships of war, beside hundreds of millions of dollars to pay the expenses of the war. What kind of a government the French people may adopt is unknown, perhaps to themselves at present. If prepared for it we should prefer to see them take position as a republic, but the question is, are the masses of the people ready for such a blessing?

Last week's Orrville *Crescent* gives the following interesting item. Mr. Thompson's course is well worthy of imitation, and should be followed by every man who has charge of such responsible stations as he occupies. The papers sometimes give Crestaline a hard name, as being peculiarly blest with drunken roughs. This course will thin them out. The friends of temperance of that place, so public report says, have raised $1,500 by subscription for the purpose of carrying on prosecutions against the drunkard makers there. Every city, town, village and neighborhood that favors legal suasion should pursue a similar course,

COMMENDABLE.—Mr. John Thompson, master machinist of the P. F. W. & C. R. W. shops at Crestline, and having control over the engineers and firemen employed by that company, is strongly opposed to employing any whisky drinkers in the service of the company. He is furthermore waging a warfare against the whisky shops of Crestline. How many serious accidents, causing the loss of life and property, would be avoided if all railway managers would refuse to employ any except sober, clear minded men. The time will come when no man addicted to the use of intoxicating drinks can secure a responsible position, excepting a political office in the corrupt city of New York.

The sad news came to us on Saturday of the sudden death of Col. G. I. Young, proprietor and editor of the *Buckeye State*, New Lisbon. In 1869 he was elected to the legislature from Columbiana county and was at Columbus in the performance of his duty as representative, when death overtook him, on last Friday. He was in the capitol at the time, passing from one part of the building to another, when attacked with severe hemorrhage of the lungs, was immediately assisted to the treasurers office, where he expired in a few minutes. Col. Young was probate judge one or two terms for Mahoning county, and at different times had held responsible positions in both civil and military relations. In all these trusts he acquitted himself honorably and performed the duties devolving upon him to the full satisfaction of all concerned. As a member of the legislature, so far as we can ascertain, he fulfilled his part to the satisfaction of his constituents. The *Buckeye State* has, within the last 7 or eight years, been unfortunate in losing, by death, several proprietors, who were also editors at the time of their taking off. Robert S. Wilson, son of the late judge Wilson of Stubenville, died sometime in 1865 or '66. The paper then fell into the hands of James Wilson, who continued some two or three years when he died at an early age, Col. Young then bought the establishment, and by his ability made it one of the best papers in this part of Ohio.

FINANCIAL.

New 7-30 Gold Loan

of the

Northern Pacific Railroad Co.

Secured by first mortgage on railroad and land grant,

SAFE! PROFITABLE! PERMANENT.

J. COOKE & CO

Offer for sale at par and accured interest the first mortgage land grant gold bonds of the Northern Pacific Railroad Company. They are free from United States tax, and are issued of the following denominations: Coupons $100, $500, and $1,000; Registered $100, $500, $1,000, $5,000, and $10,000.

With the same entire confidence with which we commended government bonds to capitalists and people, we now, after the fullest investigation, recommend these Northern Pacific Railroad bonds to our friends and the general public.

Gold Payment—Both the principal and interest are payable in American gold coin, at the office of Jay Cooke & Co., New York city—the principal at the end of 30 years, and the interest (at the rate of seven and three tenths per cent. per annum) half yearly, first of January and July.

Perfect Safety—The bonds we are now selling, are secured by a first and only mortgage on all the property and rights of the Northern Pacific Railroad Co, which will embrace on the completion of the work.

1. Over two thousand miles of road, with rolling stock, buildings, and all other equipments;

2. Over twenty two thousand acres of land to every mile of finished railroad. This land, agricultural, timbered and mineral, amounting in all to more than fifty million acres, consists of alternate sections, reaching twenty to forty miles on either side of track, and extending in a broad belt from Wisconsin through the richest portions of Minnesota, Dakota, Montana, Idaho, Oregon and Washington to Puget Sound.

While the government does not directly guarantee the bonds of the road, it thus amply provides for their full and prompt payment by an unreserved grant of land, the most valuable ever conferred upon a great national improvement.

The Mortgage—The trustees under the mortgage, are Messrs Jay Cooke of Philadelphia, and J. Edgar Thomson, president of the Pennsylvania Central Railroad Company. They will directly and permanently represent the interest of the first mortgage bond holders, and are required to see that the proceeds of land sales are used in purchasing and cancelling the bonds of the company if they can be bought before maturity at not more than 10 per cent premium; otherwise the trustees are to invest the proceeds of land sales in United States Bonds or Real Estate Mortgages for the further security, at least 500 acres of average land to every $1,000 of outstanding first mortgage bonds, besides the railroad itself and all its equipments and franchises

Profitableness—Of course nothing can be safer than the bonds of the United States, but as the government is no longer a borrower, and as the nation's present work is not that of preserving its existence, but that of developing a continent, we remind those who desire to increase their income and obtain a more permanent investment, while still having a perfectly reliable security, that United States 5-20's at their average premium yield the present purchaser less than 5½ per cent gold interest. Should they be reduced in five years, and specie payment be resumed, they would really pay only 4⅝ per cent, or if in three years, only 3½ per cent. as the present premium would meanwhile be sunk

Northern Pacific 7 30's selling at par in currency yield the investor 7 3-10 per cent. gold interest absolutely for thirty years, free from United States tax $1,000 currency invested now in United States 5 20's will yield per year in gold, say $62. $1,000 currency invested now in Northern Pacific 7 30's will yield per year in gold, $80,30 Here is a difference in annual income of nearly one third, besides a difference of 7 to 10 per cent in principal, when both classes of bonds are redeemed

The Road Now Building—Work was begun in July last on the eastern portion of the line, and the money provided, by the sale to stockholders of some six millions of the company's bonds, to build and equip the road from lake superior across Minnesota to the Red river of the north—233 miles. The grading on this division is now well advanced, the iron is being rapidly laid, several thousand men are at work on the line, and about the first of August next this important section of the road will be in full operation. In the meantime orders have been sent to the Pacific coast for the commencement of the work on the western end in early spring, and thereafter the work will be pushed, both eastward and westward, with as much speed as may be consistent with solidity and wise economy.

Receivable for Lands—These bonds will be at all times, before maturity, receivable at 1.20, in payment for the company's lands, at their lowest cash price.

Bonds Exchangeable.—The registered bonds can be exchanged at any time for coupons, the coupons for registered, and both these can be exchanged for others, payable, principal, and interest, at any of the principal financial centres of Europe, in the coin of the various European countries.

How to Get Them.—Your nearest bank or banker will supply these bonds in any desired amount, and of any needed denomination. Persons wishing to exchange stocks or other bonds for these, can do so with any of our agents, who will allow the highest current price for all marketable securities.

Those living in localities remote from banks, may send money, or other bonds, directly to us by express, and we will send back Northern Pacific bonds at our own risk, and without cost to the investor. For further particulars pamphlets, maps, etc, call on or address the undersigned, or any of the banks or bankers employed to sell this loan

BRIGGS & BRO'S

Illustrated & Descriptive Catalogue

of flower and vegetable seeds,

And Summer-Flowering Bulbs.

FOR 1871.

Will be readey for mailing by the middle of January, notwithstanding our great loss of type, paper, engravings, &c, by fire which destroyed the job printing office of the Rochester Democrat and Chronicle, 26th December, 1870. It will be printed on a most elegant new tinted paper, and illustrated with nearly 500 original engravings, and two finely executed colored plates—specimens of all of which were grown by ourselves the past season from our own stock of seeds. In the originality, execution and extent of the engravings it is unlike and eminently superior to any other catalogue or Floral Guide extant.

The catalogue will consist of 112 pages, and as soon as published will be sent free to all who ordered seeds from us by mail last season. To others a charge of 15 cents will be made, which is not the value of the colored plates. We assure our friends that the inducements we offer to purchasers of seeds, as to quality and extent of stock, discounts and premiums, are unsurpassed. Please send orders for catalogues without delay.

Our Colored Cromo For 1871.

Will be ready to send out in January. The Chromo will represent 42 varieties of showy and popular flowers of natural size and color. We design to make it the best plate of flowers ever issued. Size 19x24 inches. The retail value would be at least $3, we shall, however, furnish it to customers at 75 cents per copy, and offer it as a premium upon orders for seeds. See catalogue when out.

BRIGGS & BRO. Rochester, N. Y.

NORTH

MISSOURI LANDS

FOR SALE.

BY THE

Hannibal and St. Joseph R. R. Company.

About 135,000 acres of the finest farming and grazing land in the United States, for sale at low prices and on very easy terms, thus enabling an industrious man with small capital to pay for his land with money earned from it.

Missouri is not too far west to be at a great distance from markets, its railroad facilities are great and constantly increasing, the climate is splendid, and good crops are almost certain; while the numerous thriving towns and cities springing up on every hand attest beyond doubt that the blight of slavery has been effectually dissipated, and that eastern men and eastern capital are doing their perfect work.

Our Lands Defy Competition.

Send for full descriptive circulars and sectional maps, enclosing 30 cents, and stating what paper you saw this in, to EDWARD WILDER, Land commissioner, Hannibal, Missouri.

As no capital is required, all desirous of genteel employment should send for the book, enclosing 10 cents for postage, to T W EVANS & Co. 41 south 8th st Philadelphia.

A Card.

A clergyman, while residing in South America as a missionary, discovered a safe and simple remedy for the cure of nervous weakness, early decay, diseases of the urinary and seminal organs, and the whole train of disorders brought on by baneful and vicious habits. Great numbers have been cured by this noble remedy. Prompted by a desire to benefit the afflicted and unfortunate, I will send the recept for preparing and using this medicine, in a sealed envelope, to any one who needs it, free of charge. Address Joseph T. Inman, Station D Bible House, New York city.

Employment for All.

$30 salary per week and expenses, paid agents to sell our new and useful discoveries. Address B Sweet & Co. Marshal, Mich.

HAIR VIGOR. In common with many others we have felt a lively interest in the investigation in which Dr. Ayer has been making to discover the cause of the failure of the hair, and to provide a remedy. His researches are said to have been much more thorough and exhaustive than ever made before. The result is now before us under the name of Ayer's Hair Vigor. We have given it a trial, and with full satisfaction. It equals our most favorable anticipation. Our gray hairs have disappeared, or assumed their original color; and a visable crop of soft, silken hair has appeared on a part of the scalp which was entirely bald.—*Democrat*, Abington, Va.

DR. WHITTLESEY, ESQ.

Dear Sir—Having stated it verbally to you, I have no hesitation in writing the fact, although not disposed in favor or to recommend patent medicines in general.

I do this more readily in regard to the sick headache cure prepared by Dr. Whittlesey, of Norwalk, Ohio. I have analyzed and tried it, and I recommend it as one of the best dyspepsia cures ever invented, and I feel that in recommending Whittlesey's cure I am doing an act of justice to the compounder of it, and an act of benevolence to those afflicted with dyspepsia and sick headache for which it is recommended.

Yours Respectfully
FRANCIS RAAS, M D.

A BOOK FOR THE MILLION!

Marriage Guide.

A Private Counselor to the Married or those about to marry on the physiological mysteries and revelations of the sexual system, the latest discoveries in producing and preventing offspring, how to preserve the complexion, &c.

Ayer's Sarsaparilla,

FOR PURIFYING THE BLOOD.

The reputation this excellent medicine enjoys, is derived from its cures, many of which are truly marvellous. Inveterate cases of Scrofulous disease, where the system seemed saturated with corruption, have been purified and cured by it. Scrofulous affections and disorders, which were aggravated by the scrofulous contamination until they were painfully afflicting, have been radically cured in such great numbers in almost every section of the country, that the public scarcely need to be informed of its virtues or uses.

Scrofulous poison is one of the most destructive enemies of our race. Often, this unseen and unfelt tenant of the organism undermines the constitution, and invites the attack of enfeebling or fatal diseases, without exciting a suspicion of its presence. Again, it seems to breed infection throughout the body, and then, on some favorable occasion, rapidly develop into one or other of its hideous forms, either on the surface or among the vitals. In the latter, tubercles may be suddenly deposited in the lungs or heart, or tumors formed in the liver, or it shows its presence by eruptions on the skin, or foul ulcerations on some part of the body. Hence the occasional use of a bottle of this *Sarsaparilla* is advisable, even when no active symptoms of disease appear. Persons afflicted with the following complaints generally find immediate relief, and, at length, cure, by the use of this *SARSAPARILLA: St. Anthony's Fire, Rose or Erysipelas, Tetter, Salt Rheum, Scald Head, Ringworm, Sore Eyes, Sore Ears*, and other eruptions or visible forms of *Scrofulous* disease. Also in the more concealed forms, as *Dyspepsia, Dropsy, Heart Disease, Fits, Epilepsy, Neuralgia*, and the various *Ulcerous* affections of the muscular and nervous systems.

Syphilis or *Venereal* and *Mercurial Diseases* are cured by it, though a long time is required for subduing these obstinate maladies by any medicine. But long continued use of this medicine will cure the complaint. *Leucorrhœa* or *Whites, Uterine Ulcerations*, and *Female Diseases*, are commonly soon relieved and ultimately cured by its purifying and invigorating effect. Minute Directions for each case are found in our Almanac, supplied gratis. *Rheumatism* and *Gout*, when caused by accumulations of extraneous matters in the blood, yield quickly to it, as also *Liver Complaints, Torpidity, Congestion* or *Inflammation* of the *Liver*, and *Jaundice*, when arising, as they often do, from the rankling poisons in the blood. This *SARSAPARILLA* is a great restorer for the strength and vigor of the system. Those who are *Languid* and *Listless, Despondent, Sleepless*, and troubled with *Nervous Apprehensions* or *Fears*, or any of the affections symptomatic of *Weakness*, will find immediate relief and convincing evidence of its restorative power upon trial.

MONEY CANNOT BUY IT!

For Sight is Priceless.

The Diamond Glasses,

Manufactured by

J. E. Spencer & Co., N. Y.,

Which are now offered to the public, are pronounced by all the celebrated Opticians of the World to be the **Most Perfect**, Natural, Artificial help to the human eye ever known.

They are ground under their own supervision, from minute Crystal Pebbles, melted together, and derive their name, "Diamond," on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or center of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural, healthy sight, and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness, &c., peculiar to all others in use.

They are Mounted in the Finest Manner in frames of the best quality, of all materials used for that purpose.

Their Finish and Durability cannot be surpassed.

CAUTION.—None genuine unless bearing their trade mark stamped on every frame.

JOSEPH COLEMAN,

Jeweler and Optician, sole agent for Massillon, Ohio, From whom they can only be obtained. These goods are not supplied to peddlers at any price. 378-1y

From the foregoing figures it will be seen that Massillon and vicinity is a locality as favorable to health and longevity as any other place of equal or even less population. The death rate during the past year, leaving out those from a distance whose remains were interred in the cemetery, would amount to but a small per centage of the population. To have a full report of all the burials, including the two Catholic cemeteries, however, which are not included in the report, will increase the death rate considerably.

The Protector is an insurance paper recently commenced in New York by Sidney Ashmore. Monthly. As its name indicates is will illustrate the propriety of insurance of various kinds, and in addition contain literary matter furnished by popular writers.

A severe fire occurred at Youngstown, on Thursday morning of last week, resulting in the destruction of three stores and other property. By the energetic action of the firemen much property that was in danger was saved. The aggregate loss is placed at over $14,000.

The Akron *Beacon* of last week suggests the propriety of holding the next editorial convention at that place. It is a capital idea, and very probably will be seconded everywhere. Akron is a good point for such a gathering, having ample railroad facilities, then it is one of the live towns, such a place as will make visitors welcome, and the occasion an enjoyable one.

Our lively friend, Mr. I. S. Crooks, has commenced serving this community, with some of the daily papers. If encouraged, as no doubt he will be, Mr. Crooks will establish a news depot, at which daily and weekly papers as well as magazines can be had.

Last week we rather prematurely announced that Mr T. P. Pease and sister had gone to Oregon. The matter has been talked of for some time about them going away, and the other day it was said they were seen going to the depot with their baggage and that is the way the report got out. We learned from a Canton paper, where they are all knowledgable people that the report was a little previous—and Mr. P's physical presence here seems to confirm the fact that we were mistaken.

Shawls, shawls, shawls, come and see how cheap we are selling them. Humberger & Son.

Bros. McKee and Patterson, publishers of the Alliance *Democrat*, have enlarged their paper and changed its name to the *Weekly Local*. This is evidence of enterprise in the proprietors and success in the effort to get up a lively and vigorous paper. A few weeks ago some people talked as if Alliance had pegged out, but this dont look like it.

One of the oldest, best established and most ably conducted religious papers in the country is the New York *Observer*. It is nearly fifty years old, suffient time to test any paper, and seems now to be in the hight of prosperity.

The snow that fell within the last ten days has made a superb foundation for sleighing, and our people have been very vigorously using it in all sorts of vehicles that will slide on runners. Saturday the town was full of sleds and sleighs, and part of the time the broad streets were crowded with teams. It is not of much use to croak about hard times, when business is as lively as it was a portion of last week. While we have had a very reasonable quantity of snow here, which fell without much high wind, in the east they were buffeted with severe winds, and enough snow to blockade some of the railroads. Considerable damage was done there by the severity of the storm. Up to this time the temperature has been rather mild here.

An alarm of fire was raised on Sunday afternoon, but as the flames rose from burning soot only, which came from one of the chimneys on Col. Webb's residence, they were suppressed without damage.

Excelsior Works started. Good.

The drunkard making business is becoming more and more precarious every day. People are beginning to find out that the grogseller can be held responsible for damages resulting from his traffic; and if the doggery keeper is not financially responsible the house in which he carries on his nefarious trade can be held accountable. This is the reason they are making such a raid on the business at Mansfield, and now it is said to be very unsafe business to retail liquor there. Other towns are following this example. A widow in Guernsey county prosecuted a liquor seller, claiming $5000 for aiding to kill her husband by selling him liquor. The case came before common pleas court, was tried, and the plaintiff awarded $2,500 damages, which the doggery keeper has to pay, in addition to $700 costs of suit. The same woman is after another grogseller for helping to kill off her husband, and it is not improbable but that she will realize a similar verdict, unless the culprit is frightened so as to make atonement without the spur of legal suasion. Akron has also waked up, and late accounts give details of troubles there among some of the grogsellers. All over the state there seems to be a disposition to enforce the laws and, when carried out there is a surprising efficiency in them that surprises both temperance people and grogsellers. When there is so much thunder and lightning all around the sky we may look out for a storm to break loose here some day. Wherever the laws are properly administered in this respect we may rest assured there are sober and efficient officers.

Last Friday while sleighing was going on vigorously on the street a pair of fine match horses attached to an elegant sleigh became frightened from some cause, overturned the riders, a part of whom were ladies, but none of the party were injured. The team, however, rushed wildly on, running west on Main street, and straddling one of the arches of the canal bridge pretty effectually smashed up the sleigh. The horses still excited ran on until they crossed the river bridge, when they soon came in contact with a post, and one of them was violently thrown to the ground, and injured severely whether past recovery or not we have not ascertained. The other was uninjured.

The *American Artisan* is a handsomely printed quarto of 16 pages weekly, published by Brown, Coombs & Co., N. Y. It is devoted to the interests of artisans and manufacturers, inventors and patentees, and ably represents their cause in its pages. Many of the subjects of its discussion are finely illustrated, making their nature and object obvious to the attentive reader. It never fails to be a competent teacher in the hands of the mechanic who desires to learn, and is not so far lost in conceit as to imagine that he has attained the end of knowledge. $2 a year, in advance. Specimens sent free.

The Advance is an ably conducted, large, religous paper, and principal organ of the congregational church in the west. Published at Chicago by the Advance Co. It is now in the fourth year of its existence, and gives every indication of being in a prosperous condition financially. The editors and their correspondents furnish a large amount of religous information weekly, and their summaries in different departments are evidences of research, industry and condensation. To those desiring to see specimens of the papers, copies will be sent on application.

KIDNEYS AND URINARY ORGANS

When we take into consideration the functions the kidneys have to perform in perserving the balance between the different depurating organs, and eliminating superfluous, unhealthy, and poisonous matters from the system through the urinary secretions, we are not surprised at the great frequency of their affection and the difficulty in the treatment of these troublesome diseases.

The vast quantity of poisonous matters that are eliminated through these secretions in a state of health, if retained in the system but a few days, would be fraught with the greatest danger to the animal economy.

And when these organs themselves become diseased from whatever cause the danger is very greatly enchanced.

The various forms of Gravel, the Gout, Bright's disease, Nephitis, Diabetes, Cystitis, and other painful diseases peculiar to the Renal system should prompt the physician to use every means possible to discover the cause of suffering, that the remedy may be applied at once.

Children and even infants are frequently liable to unnatural secretions of urine, and painful affections in voiding it, which is often overlooked or passed unnoticed because of the inability of the little sufferer to make known the seat or location of the excruciating pain, which is another reason that secretion ought to be careful-ly examined in every disease.

We have had a number of patients who were treated by eminent physicians for a long time without benefit because of mistaken diagnosis, and who were relieved in a very short time after the real cause of the disease was made known by the examination of the urine.

In fact so numerous have been these mistakes for want of more scientific knowledge of Urino Pathology, and so promptly are these painful and distressing maladies relieved when the real cause is detected and the appropriate remedy administered, that we are only astonished so little attention is paid in that direction.

Let not any fastidious or squeamish notions deter you from making application to us for relief.

The most of cases may be cured by a single course of medicine.

Send us a vial of *Morning Urine* by *Express* (not by mail,) with name, age, and P. O. address of the patient and we can send you the necessary medicines.

Address Drs. OLDSHUE,
132 Grant St. Pittsburgh, Pa.

Blankets and coverlids, at cost, at Humberger & Son's.

The ladies of the Home Relief Society will meet Thursday afternoon, at the residence of Mrs. R. Humberger, corner of Prospect and Wellman sts.

If you want to save money buy your dry goods at Humberger & Son's.

The gay sleighing time that our people had since the last snow fell was brought to a rather sudden halt on Monday, as a thaw rapidly melted the snow, and in the night a rain came and utterly spoiled the fun.

The largest line of Hamburg and hand made embroidery, edgings and insertings at Humberger & Son's, they are selling them off at very low prices. Ladies will find it to their advantage to call and see our prices.

Somebody made so free as to take without leave—which in English signifies stealing—the horse and sleigh of Cyrus Young, Sunday evening, which was quietly standing in one of our alleys, and driving off, we have not heard where. Mr. Y. made vigorous search and soon found his missing property. Driving off horses and seighs after that style sometimes brings people to trouble, and Mr. Y. may make this case interesting to somebody.

Flannels and woolens cheaper than ever at Humberger & Son's.

Choice syrups at 75 cts per gallon, the very best out at $1 15, choice sugars, teas and groceries of all kinds. 'Twill pay to call and see the prices at London's Cheap Cash Store.

Great bargains in dry goods for the next 30 days at Humberger & Son's.

We would recommend all persons who are in want of Dry goods of any kind to go to Ricks' and examine their assortment—They have a large line from which to select and they have reduced the prices of many goods.

Great bargains in dry goods for the next 60 days, at Humberger & Son's.

The following named daily papers will be promptly delivered to subscribers by Mr I S Crooks: Cincinnati Gazette, Pittsburgh Chronicle, and Pittsburgh Leader.

Flannels and woolens cheaper than ever at Humberger & Son's.

Any lady in want of dress goods will find it to her advantage to call at Ricks' as they have reduced the prices of all goods in this line to a very low figure.

We are under obligations to J. N. McCullough, superintendent of the P F W & C R W, and the C & P road for favors; also to G W Bradley, superintendent of the Niles & New Lisbon road for similar favor.

The largest line of Hamburg and hand made, embroidery, edgings and insertings at Humberger & Son's, they are selling them off at very low prices. Ladies will find it to their advantage to call and see our prices.

Must be sold—Our entire stock of blankets, double shawls, beaver cloakings, furs, &c., have been marked down to such prices at Ricks' that you will surely buy them.

New job type just received at this office. Bring on your orders.

If you want to save money buy your dry goods at Humberger & Son's.

Fancy colored silks and poplins have been greatly reduced in prices at Ricks'.

Blankets and coverlids at Humberger's.

Persons indebted to S A Conrad are liable to be sued without further notice from this date.

Great bargains in dry goods for the next 60 days at Humberger & Son's.

Ricks' have made a great reduction in the prices of their winter stock of carpets.

Flannels and woolens, cheaper than ever at Humberger & Son's.

You can buy bleached and unbleached muslins cheap at Ricks'.

The largest line of Hamburg and hand made embroidery, edgings, and insertings at Humberger & Son's, they are selling them off at very low prices. Ladies will find it to their advantage to call and see our prices.

If you want to save money buy your dry goods at Humberger & Son's.

MARRIED—By Rev E Hingeley on the 26th ult, Mr Joseph Snyder and Miss Martha Weisler, at the American House.

By Rev. R L. Williams, on the 29th ult, Jno T. Wardle and Louisa Taylor, all of Massillon.

DIED—On the 29th ult Mrs Zielley, wife of George Zielley, proprietor of the Zielley House, aged about 46 years.

Auditor of State's Office,
Department of Insurance,
Columbus, O., JAN. 21st, 1870.

It is hereby certified, that the North American Fire Insurance Company, located at Hartford, in the state of Connecticut, has complied, in all respects, with the laws of this state, relating to fire and marine insurance companies, for the current year, and has filed in this office a sworn statement, by the proper officers thereof, showing its condition and business, on the 31st of December 1870, to be as follows:

Am't of actual paid up capital,	$300,000 00
Aggregate amount of available assets,	456,503 81
Aggregate amount of liabilities (including re insurance),	180,791 64
Amount of income for preceding year,	358,267 12
Amount of expenditures for preceding year,	314,467 41

In witness whereof, I have hereunto subscribed my name, and caused the seal of my office to affixed the day and year above written.
[L. S.] JAS. H. GODMAN, Aud. of State.

For further particulars call on or address ADAM FORSTER, box 176, Massillon, O. 396 2m

SHORT HAND WRITING

ONE HUNDRED AND FIFTY WORDS PER MINUTE can now be learned in four weeks. This is the new *Lightning Method*. All that see it say it is the greatest marvel of the age. Send two 3-cent postage stamps for descriptive circulars, testimonials and full information. Address Prof. A. GRET P. O. Box 4,847, New York.

What the Press Says.

The Reading (Pa) Dispatch says: "The well known superiority of Mishler's Herb Bitters will spare us the necessity of saying anything at length in favor of this magical Tonic and Stimulant. Wherever this bitters is best known it meets with an astonishing sale. There are cases in this city where the most radical cures have been effected in chronic diseases—cures which the best physicians could not effect, and we know of scores of families (our own among the number) who would not be without a plentiful supply of this great household remedy for any consideration. Let every family in the land keep it on hand." Sold by all respectable druggists. Price one dollar per bottle.

Unanswerable Arguments

Established facts are silent arguments which neither tongue or pen can shake, and it is upon established facts that the reputation of Hostetter's Stomach Bitters, as a health preserving elixir, and a wholesome and powerful remedy, is based. When witnesses come forward in crowds year after year, and reiterate the same statements in relation to the beneficial effects of a medicine upon themselves, disbelief in the efficacy is literally impossible. The credentials of his unrivaled tonic and alterative, extending over a period of nearly twenty years, include individuals of nearly every class, residents of every clime, and refer to the most prevalent among the complaints which afflict and harass the human family. Either a multitude of people, strangers to each other, have annually been seized with an insane and motiveless desire to deceive the public, or Hostetter's bitters, for no less than a fifth of a century, have been affording relief to sufferers from indigestion, fever and ague, biliousness, general debility, and nervous disorders, as no other preparation has ever imparted. To day, while the eyes of the reader are upon these lines, tens of thousands of persons of both sexes are relying upon the bitters as a sure defence against the ailments which the present season engenders, and their confidence is not misplaced. The local portions which interested dealers sometimes endeavor to foist upon the sick in its stead everywhere meeting the fate that is due to fraud and imposture, while the demand for the great vegetable tonic is constantly increasing.

It is a two story brick house, with some eight or nine rooms, well furnished with all the conveniences of a dwelling. A stable, carriage shed, cistern, well, &c, are on the premises. For terms and particulars inquire of PETER DIEBHENN
Jan 13, 1871—494-10w.

TO PHYSICIANS.

NEW YORK, August 15th, 1868.

Allow me to call attention to my Preparation of Compound Extract Buchu. The component parts are Buchu, Long Leaf, Cubebs, Juniper Berries.

Mode of Preparation.—Buchu, in vacuo. Juniper berries, by distillation to form a fine gin. Cubebs extracted by displacement with spirits obtained from Juniper Berries; very little sugar is used and a small proportion of spirits. It is more palatable than any now in use.

Buchu as prepared by druggists, is of a dark color. It is a plant that emits its fragrance, the action of a flame destroys this (its active principle), leaving a dark and glutinous decoction. Mine is the color of ingredients. The buchu in my preparation predominates; the smallest quantity of the other ingredients are added, to prevent fermentation; upon inspection it will be found not to be a tincture, as made in pharmacopœa, nor is it a syrup—and therefore can be used in cases where fever or inflamation exists. In this, you have a knowledge of the ingredients and the mode of preparation.

Hoping that you will favor it with a trial, and that upon inspection it will meet with your approbation,

With a feeling of profound confidence,
I am, very respectfully
H. T. HELMBOLD.

Chemist and druggist of 19 years experience.

(From the largest Manufacturing Chemists in the world.)

November 4, 1854.

"I am acquainted with Mr. H. T. Helmbold he occupied the Drug Store opposite my residence, and was successful in conducting the business where others had not been equally so before him. I have been favorably impressed with his character and enterprise."

WILLIAM WEIGHTMAN.
Firm of Powers & Weightman, Manufacturing Chemists, Ninth and Brown Streets, Philadelphia.

HELMBOLD'S
FLUID EXTRACT
BUCHU.

For weakness arising from indiscretion. The exhausted powers of nature which are accompanied by so many alarming symptoms among which will be found indisposition to exertion, loss of memory, wakefulness, horror of disease, or forebodings of evil; in fact, universal lassitude, prostration, and inability to enter into the enjoyments of society.

THE CONSTITUTION

once affected with organic weakness, requires the aid of medicine to strengthen and invigorate the system, which Helmbold's Extract Buchu invariably does. If no treatment is submitted to, consumption or insanity ensues.

Helmbold's Fluid Extract Buchu,

in affections peculiar to females, is unequaled by any other preparation, as in chlorosis, or retention, painful, or suppression of customary evacuations, ulcerated or Schirrus state of the uterus, and all complaints incinental to the sex, or the decline or change of life.

Helmbold's Fluid Extract Buchu
AND
IMPROVED ROSE WASH

will radically exterminate from the system diseases arising from habits of dissipation, at little expense, little or no change in diet, no inconvenience or exposure; completely superceding those unpleasant and dangerous remedies copaiva and mercury, in all these diseases.

USE

Helmbold's Fluid Extract Buchu

In all diseases of these organs, whether existing in male or female, from whatever cause originating, and no matter how long standing. It is pleasant in taste and odor, immediate in action, and more strengthening than any of the preparations of bark or iron.

Those suffering from broken down or delicate constitutions, procure the remedy at once.

The reader must be aware that, however slight may be the attack of the above diseases, it is certain to effect the bodily health and mental powers.

All the above diseases require the aid of a Diuretic. Helmbold's Extract Buchu is the great Diuretic.

Sold by druggists everywhere. Price $1,25 per bottle, or 6 bottles for $6,50. Delivered to any address. Describe symptoms in all communications. Address,

H. T. HELMBOLD,

DRUG AND CHEMICAL WAREHOUSE

594, Broadway, N. Y.

None are genuine unless done up in steel engraved wrapper, with fac-simile of my Chemical Warehouse, and signed.

Hoofland's German Bitters,
Hoofland's German Tonic,
Hoofland's Podophyllin Pill
Hoofland's Greek Oil.

Hoofland's German Bitters,

A Bitters without Alcohol or Spirits of any kind.

Is different from all others. It is composed of the pure juices or vital principle of roots, herbs, and barks, (or as medicinally termed extracts), the worthless or inert portions of the ingredients not being used. Therefore, in one bottle of this bitters there is contained as much medicinal virtue as will be found in several gallons of ordinary mixtures. The roots &c, used in this bitters are grown in Germany, their vital principles extracted in that country by a scientific chemist and forwarded to the manufactory in this city, where they are compounded and bottled. Containing no spirituous ingredients, this bitters is free from the objections urged against all others, no desire for stimulants can be induced from their use, they cannot make drunkards, and cannot under any circumstances, have any but a beneficial effect.

Hoofland's German Tonic

Was compounded for those not inclined to extreme bitters, and is intended for use in cases where some alcoholic stimulant is required in connection with the tonic properties of the bitters. Each bottle of the tonic contains one bottle of the bitters, combined with pure Santa Cruz Rum, and flavored in such a manner that the extreme bitterness of the bitters is overcome, forming a preparation highly agreeable and pleasant to the palate, and containing the medicinal virtues of the bitters. The price of the tonic is $1,50 per bottle, which many persons think too high. They must take into consideration that the stimulant used is guaranteed to be of a pure quality. A poor article could be furnished at a cheaper price, but is it not better to pay a little more and have a good article? A medicinal preparation should contain only the best ingredients, and they who expect to obtain a cheap compound will most certainly be cheated.

They are the greatest known Remedies

For Liver Complaint, Dyspepsia, Nervous Debility, Jaundice, Disease of the Kidneys, Eruptions of the Skin, and all diseases arising from a disordered Liver, or Stomach, or Impurity of the Blood.

Read the following symptoms:

Constipation, flatulence, inward piles, fulness of blood to the head, acidity of the stomach, nausea, heartburn, disgust for food, fullness or weight in the stomach, sour eructations, sinking or fluttering at the pit of the stomach, swimming of the head, hurried or difficult breathing, fluttering at the heart, choking or suffocating sensations when in a lying posture, dimness of vision, dots or webs before the sight, dull pain in the head, deficiency of perspiration, yellowness of the skin, and eyes, pain in the side, back, chest, limbs, &c, sudden flushes of heat, burning in the flesh, constant imaginings of evil, and great depression of spirits. All these indicate disease of the liver or digestive organs combined with impure blood.

The use of the bitters or tonic will soon cause the above symptoms to disappear, and the patient will become well and healthy.

Dr. Hoofland's Greek Oil,

LIGHTNING CURE FOR ALL KINDS OF PAINS AND ACHES.

APPLIED INTERNALLY.—It will cure kidney complaints, backaches, sick, headaches, colic, dysentery, diarrhœa, cholera Infantum, cholera morbus, cramps, and pains in the stomach, fever and ague, colds, coughs Asthma, &c.

APPLIED EXTERNALLY.—It will cure all kinds of pains and aches, such as rheumatism, neuralgia, toothache, chilblains, sprains bruises, frost bites, headaches, pains in the back and loins, pains in the joints or limbs, stings of insects, ringworms, &c.

Dr. Hoofland's Podophyllin

Substitute for Mercury Pill.

TWO PILLS A DOSE.

The most powerful, yet innocent vegetable cathartic known.

It is not necessary to take a handful of these pills to produce the desired effect, two of them act quickly and powerfully, cleansing the liver, stomach and bowels of all impurities. The principal ingredient is Podophyllin, or the alcoholic extract of mandrake which is by many times more powerful, acting, and searching, than the mandrake itself. Its peculiar action is upon the liver, cleaning it speedily from all obstructions, with all the power of mercury, yet free from the injurious results attached to the use of that mineral.

For all diseases in which the use of a cathartic is indicated, these pills will give entire satisfaction in every case. They never fail.

In cases of liver complaint, dyspepsia, and extreme costiveness, Dr. Hoofland's German Bitters or tonic should be used in connection with the pills. The tonic effects of the bitters or tonic builds up the system. The bitters or tonic purifies the blood, strengthens the nerves, regulates the liver and gives strength, energy, and vigor.

Keep your bowels active with the pills, and tone up the system with bitters or tonic, and no disease can retain its hold, or ever assail you.

These medicines are sold by all druggists and dealers in medicines everywhere.

Recollect that it is Dr. Hoofland's German Remedies, that are so universally used and highly recommended; and do not allow the druggist to induce you to take anything else that he may say is just as good, because he makes a larger profit on it. These remedies will be sent by express to any locality, upon application to the principal office, at the German Medical Store, 631 Arch Street, Pa.

Chas. M. Evans, Prop.

Formerly C. M. Jackson & Co.

These remedies are for sale by druggists, storekeepers, and medicine dealers, everywhere throughout the United States, Canadas, So America and the West Indies. 389 1y

DOCTOR OLIN,

THE longest engaged and most successful physician in Chicago, in the treatment of *venereal, sexual*, and all *private diseases*, all *urinary diseases*, Syphalitic or Mercurial affections of the Throat, Skin, or bones are treated with unparalleled success.

Spermetorrhea, Sexual Debility and Impotency, as the result of self-abuse in youth excesses in maturer years, or other cause, and producing some of the following effects, viz: *Nocturnal emissions*, blotches on the face, *dizziness*, dimness of sight, confusion of ideas, evil forebodings aversion to society of females, loss of *memory*, and sexual power, rendering marriage improper and life miserable, are permanently cured. The Doctor's opportunities in hospital and private practice are unsurpassed in Chicago or any other city. Office, parlors, laboratory, and appointments are unrivaled in the west, and unsurpassed anywhere.

Age, with experience, can be relied upon, and the doctor can refer to many physicians throughout the country. In past success and present position he stands without a competitor. The writings of a physician whose reputation is union wide should be worth reading.

Doctor Olin publishes a *Medical Pamphlet* relating to Venereal Diseases, and the disastrous and varied consequences of Self Abuse, that will be sent to any address in plain sealed envelope for two stamps, private circular to *Ladies* one stamp. Many physicians introduce patients to the Doctor after reading his medical pamphlet. Communications confidential. Consultations by letter or at the office, free.

Office central, yet retired, No. 102 Washington street, Chicago. Hours, 9 a m to 8 p. m. Sundays 9 a m to 12 m. 394 1y

Property for Sale.

I will sell at private sale my lots on State street, in Kendall, Stark Co. O. On which is a one and a half story dwelling house, a good barn, small orchard of pear, apple and peach trees, grape vines &c. Also, will sell with lots an interest in two wells of water. If the lots are not sold by the latter part of March, I will then sell them at Public Sale. Any person wishing to see said property will call on the subscriber who will make known his terms &c. ADAM VOLKMOR
Massillon, Jan 17, 10w394

NEWSPAPERARCHIVE®

NEWSPAPERARCHIVE®

COULDN'T SEE THE NEED.

The worthy gentleman who rules the rising generation of boys in a certain town in Tennessee had occasion, recently, to correct a little boy named Johnny. Now Johnny had what is called sulks, because he was whipped, and in order to convince him that he was justly and necessarily punished, his teacher had recourse to the following argument:

'Well, Johnny, suppose you were riding a big horse to water, and had a keen switch in your hand, and all at once the horse were to stop and refuse to go any further, what would you do?'

Johnny stifled up his sobs for a moment, and looking up through his tears, innocently replied:

'I'd cluck to him, sir?'

'But, Johnny, suppose he would't go for your clucking, what then?'

'I'd get down and lead him, sir.'

'And what if he were obstinate and wouldn't let you lead him?'

'Why, I'd take of his bridle and turn him loose and let him walk home.'

'You may go and take your seat, Johnny.'

Johnny could not be made to see the necessity for using the switch.

When a man has been dosed to death with mineral poisons, we are told that his medical attendant has lost a patient. It would be rude to say the patient has been poisoned. Yet that would be the truth, and it is treason to humanity to disguise it. Dyspeptics, nervous sufferers, debilitated and broken down invalids of every type, if you covet that inestimable blessing, physical vigor, resort without delay to Hoofland's German Bitters or to Hoofland's Tonic, composed of the same vegetable elements, with a stimulant superadded. These specifics from the medicine chests of nature restore the strength, regulate the secretions, purify the blood, invigorates the constitution, and clear the brain. Principal depot, 631 Arch st. Philadelphia, Pa. Sold by druggists.

If you have a discharge from the nose, offensive or otherwise, partial loss of the sense of smell, taste or hearing, eyes watering or weak, feel dull and stupid or dibilitated, pain or pressure in the head, take cold easily, you may be sure you have the catarrh. Thousands annually, without manifesting half the above symptoms terminate in consumption and end in the grave No disease is so common, more deceptive or less understood by physicians. Dr. R. V. Pierce; 133 Seneca street Buffalo, N. Y. is the sole proprietor of Dr. Sage's Catarrh Remedy—a perfect specific for catarrh, cold in the head, or catarrhal headache, which he sends to any address by mail on receipt of sixty cents. Sold by druggists.

A race of sculptors—the Chip aways.

Capital punishment—being kissed to death by a pretty girl.

O, that my father were seized with remittent fever! sighed a young spend thrift at college.

It is not a very good definition of a coffin to call it the house that a man lives in when he is dead.

The sort of legs a factory 'mule' goes upon—spindle shanks.

They have a Mad river in Oregon. Of course it foams at the mouth.

Why can't the cook eat her apron? Because it goes against her stomach.

General Court—paying attention to half a dozen damsels at one time.

A cynical bachelor is of the opinion that many of the girls of the period are less in facts than figures.

An Irishman being asked on a late trial for a certificate of his marriage, exhibited a huge scar on his head, which looked as though it might have been made with a fire shovel. The evidence was satisfactory.

The deadly weapons of hatred must be blunted and entirely changed by the mild, strong hand of love.

It is stated by the Cleveland Leader that the Ladies of the Women's Christian Association of that city hold a list of the names of young men who are in the habit of visiting the houses of illfame. As may be imagined, this state of things causes no little trepidation among the guilty ones.

Negro minstrels in Philadelphia advertise themselves as giving loaves of bread to the poor.

An excellent old deacon, who having won an old turkey at a charity raffle did not like to tell his severe orthodox wife how he came by it, quietly remarked as he handed her the fowl that the shakers gave it to him.

California, looking over 1870 rejoices that she has seen during the year the shipment of the first bale of home raised silk, the raising of the first successful crop of cotton, and the first success in the manufacture of beet sugar.

Robert Colyer of Chicago, in a sermon once said of the inventor of the locomotive: 'I would rather take my chances as Robert Stephenson with that locomotive on my back, knocking for admission at the gate of St. Peter in Paradise, than the devoutest saint who can carry on his back a ton's load of vows and penances.'

'You are very stupid, Thomas,' said a country teacher to a little boy eight years old, 'You are a little donkey; and what do they do to cure them of stupidity?' 'They feed them better and kick them less,' said the arch little urchin.

McDONALD & BRUCE

The Independent,

Massillon, Ohio.

Is now Seven Years Old, and

"Still L- ."

Without boasting of being an organ of immense influence, we may with diffidence claim that the paper is not without usefulness in the right direction, ever contending for ja all the living issues of the day. But its principal business has ever been to subserve the local interests of the community with which it is identified, and so it proposes to continue. Its home record of the ever varying phases of business, of the prosperity of the city, and of the social and moral state of society here, with other matters too numerous to specify, will give those who come after us, and have occasion to examine the files of this paper, a faithful history of the years of its existence.

We solicit the continued patronage of our people in the confidence that we shall render satisfaction—at least as near as we can come at it—and for such as are removing elsewhere we hope to make the INDEPENDENT a very welcome visitor.

ADVERTISING

Done on easy terms. Our patrons have been liberal toward us in this respect, and we hope they may continue such welcome favors, satified that they are well paid for their investments.

Dr D. R. LYON, Medical Examiner. 249 1y

Dr. J. LONG.

Eclectic Physician,

Has located himself at Massillon, O., for the treatment of

Female & Chronic Diseases.

Office on Main street, four doors east of the American Hotel.

All consultations and examinations of patients made free of charge.

Dr. Long examines and explains your disease without asking any questions. If he understands your case you know it, and cannot be deceived. If he cannot tell your disease, and how you feel without asking questions he does not consider himself competent to treat your case. This is the criterion to go by, and patients should not be satisfied with any other. This is the only direct and positive evidence of my ability as a scientific physician, and by this standard I am willing to be judged.

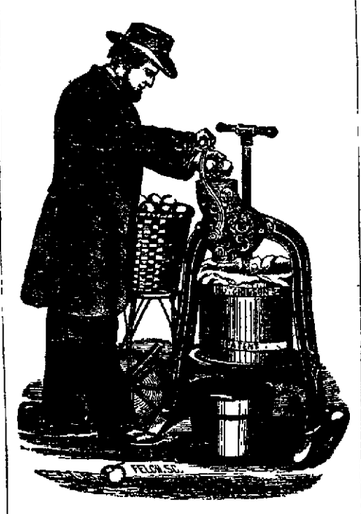

A proper diagnosis of local disease, without constitutional symptoms, that is, not affecting the system generally, must depend upon the judgement of both patient and physician.

Give Dr. Long a call, and satisfy yourselves whether he understands your cases sufficiently well to treat them successfully

Dr. Long may be consulted in the German and English languages. Address letters,
JAMES LONG, M. D.,

A LECTURE TO YOUNG MEN.

Just Published in a Sealed Envelope. Price six cents. A Lecture on the Nature, Treatment and Radical Cure of

of Spermatorrhœa, or Seminal weakness, involuntary seminal losses, impotency, mental and physical incapacity, impediments to marriage, etc.; also, consumption, epilepsy, and fits, induced by self indulgence or sexual extravagance.

The celebrated author, in this admirable essay, clearly demonstrates from a thirty years' successful practice that the alarming consequences of self abuse may be radically cured without the dangerous use of internal medicine or the application of the knife; pointing out a mode of cure at once simple, certain, and effectual, by means of which every sufferer, no matter what his condition may be, may cure himself cheaply, privately and radically.

This lecture should be in the hands of every youth and every man in the land.

Sent under seal, in a plain envelope, to any address, postpaid on receipt of six cents or two post stamps.

Also, Dr. Culverwell's "Marriage Guide," price 25 cents.

Address the publishers, CHAS. J. C. KLINE & CO., 127 Bowery street New York P. O. Box 4,586 374-1y

DR. WHITTIER

Continues to treat all private diseases syphilis in all its forms, gonorrhœa, gleet, stricture, orchitis, and all urinary diseases, and the effects of mercury are completely eradicated; spermatorrhœa or seminal weakness and impotency, resulting from self abuse or other causes, and which produce some of the following effects, as blotches, bodily weakness, indigestion, consumption, aversion to society, unmanliness, dread of future events, loss of memory, indolence, nocturnal emissions, and finally so prostrating the sexual system as to render marriage unsatisfactory, and therefore imprudent, are permanently cured.

It is self evident that the physician who confines himself exclusively to the study of a certain class of diseases and treats thousands of cases every year must acquire a greater skill in that speciality than one in general practice.

The establishment, comprising ten ample rooms, is central. When it is not convenient to visit the city, the doctor's opinion can be obtained by giving a written statement of the case, and medicines can be sent by mail or express.

The doctor publishes a medical pamphlet of fifty pages that gives a full exposition of venereal and private diseases that can be had free at office or by mail, in sealed envelope, for two stamps. Every sentence contains instruction to the afflicted, and enabling them to determine the precise nature of their complaints.

Hours 9 a. m to 8 p. m. Sundays 12 m, to 2 p. m. Office, No. 9 Wylie street, (near the court house,) Pittsburg, Pa. 305-1y

JOS. COLEMAM.

I do not wish to inform you, reader, that Dr. Wonderful, or any other man, has discovered a remedy that cures consumption, when the lungs are half consumed, in short, will cure all diseases whether of mind, body, or estate, make men live forever, and leave death to play for want of work, and is designed to make our sublunary sphere a blissful paradise, to which heaven itself shall be but a side show. You have heard enough of that kind of humbuggery. But when I tell you that Dr. Sage's Catarrh Remedy will cure the worst cases of catarrh in the head, I only assert that which thousands can testify to. I will pay $500 reward for a case that I cannot cure. A pamphlet giving symptoms and other information sent free to any address. This remedy is

Sold by Most Druggists in all parts of the World.

Price 50 cents. Sent by mail, postpaid, on receipt of sixty cents, or four packages for two dollars. Beware of counterfeits and worthless imitations. See that my private stamp, which is a positive guarantee of genuineness, is upon the outside wrapper. Remember that this private stamp issued by the U S government expressly for stamping my medicines has my portrait name and address and the words U S Certificate of Genuineness engraved upon it, and need not be mistaken. Don't be swindled by travelers and others representing themselves as Dr. Sage. I am the only man now living that has the knowledge and right to manufacture the genuine Dr. Sage's Catarrh Remedy, and I never travel to sell this medicine. R. V. PIERCE, M. D. 133 Seneca street, Buffalo, N. Y. 380-3m
